Express Mart Announces Websites Grand Opening *Newly Revamped Corporate and Car Wash Websites*

DeWitt, NY – Express Mart, a New York State convenience store and gas retailer, has completed an overhaul of its corporate website, www.expressmart.com, and launched a separate site for its 24/7 Touchfree Car Washes, www.washnsave.com.

“We are really excited to bring our customers these new sites. They give us more ways to reach the customer and satisfy their needs,” stated Andrea Waldman, marketing specialist for Express Mart.

The company’s corporate site offers users the ability to find locations, obtain lottery results, print out coupons, and much more. The Car Wash site allows visitors an opportunity to purchase car washes on-line and learn about the benefits of using a professional, Touchfree car wash.

The websites are having a grand opening that will last from Thursday, December 7 through Monday, December 18 but, the excitement is already brewing. Locations will be decked out with signage and balloons. Special offers can be downloaded from both sites and those who sign up for the mailing list will receive additional discounts.

The websites were designed by Cam Web Design of Endicott, NY (www.camwebsitedesign.com).

About Express Mart

Express Mart is a chain of convenience stores and is wholly owned and operated by Petr-All Petroleum Corporation. Founded in 1975, Petr-All Petroleum is a wholesale supply and distribution company of gasoline and diesel fuel. Express Mart was created in 1989 as a way to better serve the customer by not just offering gasoline, but all convenience needs. Since then, Express Mart has grown to over 50 retail outlets throughout Upstate New York as well as several franchise locations. Express Mart puts the customer first and is constantly seeking out new ways to bring you Around The Clock Convenience. For more information, visit www.expressmart.com.
